## SUMMARY

As a tech enthusiast with a growing interest in Business Analysis, I combine strong office tech skills, basic coding knowledge, and a solution-oriented mindset to help bridge the gap between data and decision-making. I'm a dependable team player, eager to contribute to meaningful projects and support smarter business outcomes.

## TECHNICAL SKILLS

Data Visualisation & Analytics	C#	Robotics
Microsoft Excel	Tableau	
Microsoft SQL Server	Python	

## PROJECTS

### British Airways Data Visualisation Using Tableau

I created an interactive Tableau dashboard visualizing key performance metrics for British Airways, including passenger traffic, revenue trends, and route-wise performance. The goal was to uncover actionable insights and present them in a clear, data-driven format to support strategic business decisions.

### Data Dashboard Using Streamlit

Developed using Streamlit to perform real-time data filtering, mathematical operations, and dynamic visualizations with user-uploaded CSV files.

### Personal Finance Tracker

Built with Streamlit to visualize income, expenses, and budgets using CSV uploads, interactive charts, and category filters.

## EDUCATION

### Bachelors in Computer Science and Engineering      Nov 2021 - May 2025

Vidya Academy Of Science And Technology

7.03 cgpa

### Class XII      Mar 2020 - Mar 2021

Mayoor School Noida

81.2%

### Class X      Mar 2018 - Mar 2019

Mayoor School Noida

84%

## ADDITIONAL INFORMATION
